January 21, 1987.

Senator Daniel P. Moynihan
733 Third Avenue
New York, NY 10017

Dear Senator:

I am a member of the American Medical Association practicing medicine in the state of New Jersey. My name is listed in the "Who's Who in the East" and in the "International Who's Who of Intellectuals" in recognition of my distinguished achievements in the field of medicine.

Since the beginning of my practice 23 years ago, I have been providing health, peace and happiness for my patients in an honest and proper manner. However, I discovered that real prosperity cannot be achieved unless it is a part of a larger plan, that is, providing prosperity for all the people in the world. Thus I started to search on this plan, studying harder and harder. I went through frustrations, hopelessness and disappointments again and again for a few years... until something very strange happened on July 3, 1986, very strange but real and promising which gave us a great power to achieve our goal, the goal of providing health, happiness, prosperity and peace for all the people in the world in a fair and harmonious manner. This happening will lead the entire human being to a new direction toward Utopia.

To reveal that strange happening, I would like very much to meet you and explain my views. I would appreciate it very much if you would consider my request for an appointment at your convenience.

Sincerely yours,

Hormoz Mohtashemi, M.D.

cc Dr. Henry Heimlich
