Dear Miss Cohen:

Following our telephone conversation I am mailing to you copies of the letters that I have written to President Reagan, Mr. M.S. Gorbachev, Pope John Paul II and Ayatollah Ruhollah Khomeini.

My main reason for desire to visit you personally was to explain further about my theory and revealing its updated information. I hope I will be able to do so sometimes in the future. Instead, I have decided to reveal the above information for the first time to Dr. E. Mark Stern in New York City on Wednesday September 9, 1987. Dr. Stern is the editor of "Voice", the Journal of the American Academy of Psychotherapists.

These information will disclose how God was created, what he is composed of, how he created the life, the Universe, matter and human beings, how life circulate in us, how our evolution took place, and what will happen to us after we die "As a matter of fact it will be a new happier birth not a death". These information will be given in a very simple language and are easy to understand. Also I will explain why I believe my theory will be the only way for salvation of the world. Enclosed is also a copy of the letter that I have received from Honorable Congresswoman Marge Roukema. She wrote this letter after she studied my work and my materials. Her support and her concerns have been very encouraging for me.

Dr. E. Mark Stern is an honorable physician who confirmed for me for the first time that my mission was real. Also he supported me to develop my technique and my theory. Now, I think that I have almost completed the first part of my mission and my theory successfully in spite of pressure of my job and earnest opposition of some members of my family, my personal friends, relatives and foes. I believe I should stop my mission at this point unless

if I am requested officially to continue and assisted to do so. The only further action that I may perform personally will be writing a letter to Ayatollah Montazeri in Iran. He is the official successor for Ayatollah Khomeini and one of the finest religious leaders in Iran. I would like to notify him from my mission and my discoveries. Also I would like to encourage him to understand us and to cooperate for achieving a universal goal of a real lasting peace, health and happiness for the entire human being harmoniously in an appropriate manner through my theory as God desires. I will certainly send you a copy of the letter if I write it to him.

Please extend my special regard to Senator Bill Bradley also to Mr. Mark Ferguson and Senator Moynihan for referring me to you.

Sincerely yours,

  
Hormoz Mohtashemi, M.D.
