Dear Shirley MacLaine

I just read your book "out of a limb" one of my patient gave it to me after she heard part of my Theory of Life. I found your book very interesting, many of your ideas are close to reality, some of them require further exploration and improvement.

I would like to discuss with you about my Theory also about a very important experience that occurred to me on July 3 1986 in Florida. That is "seeing God" "experiencing him directly" and "being inspired by him".

I developed my Theory as the result of the force of my experience and pressure of life. I believe that the world and humanity will be revolutionized as the result of my experience and my Theory if they are applied properly.

I would like to talk to you also I may need some assistance from you if you are kind enough to consider it. I would appreciate if you contact me by any means for further discussion at your convenience.

Enclosed are also ~~two~~ copy of my letter to the office of senator Bill Bradley and his response regarding my theory.

I hope I will hear from you soon

Sincerely yours

H. Mohtasemi
