Mr. Ted Koppel
c/o ABC News
1717 De Sales Avenue N.W.
Washington, D.C. 20036

Dear Mr. Koppel:

I have something extremely important to discuss with you. Something that will change the future course of history. It will revolutionize the humanity and the world into a proper course.

The summary of my subjects are as follows:

Following a very important event that occurred for me in July 3, 1986, i.e. "Seeing God" "experiencing Him directly and being inspired by Him", I became able to discover many secrets of the Life and develop many theories accordingly. Among them the following two are the most important ones:

- 1) The New Theory of Life, existence and evolution.
- 2) The theory of achieving peace, health and happiness for the world.

I am planning to publicize the first theory for public debate and understanding as they become ready for it. The second theory is in the stage of verification at this time. I do need your understanding and cooperation in order to be able to verify and apply it. Nobody else anywhere in the world is aware of the content and the projected course of this theory at this time.

I appreciate your agreement for meeting you or a trusted representative of yours at your convenience for revealing the details of these very interesting universal stories. I will continue to keep these details confidential unless I don't hear from you in the next few weeks. There is no doubt in my mind that my theories will lead the humanity toward peace and prosperity before the end of this century if they are understood and applied properly.

Mr. Ted Koppel

Enclosed are also copies of two preliminary comments that I have received from Congresswoman Marge Roukema and Senator William Bradley in regard to the above matter. These are for your information.

I hope I will hear from you soon.

Sincerely yours,

H. Mohtashemi

Kormoz Mohtashemi, M.D.
