
HORMOZ MOHTASHEMI, M. D.
DIPLOMATE AMERICAN BOARD OF INTERNAL MEDICINE
AND GASTROENTEROLOGY
CLIFTON, N. J.

January 4, 1988

Honorable William Bradley
United States Senate
Washington, D. C. 20510

Dear Senator Bradley:

Enclosed are copies of the letters that I have written to Hojatol Islam Hashemi Rafsanjani, the President of the Parliament of the Islamic Republic of Iran. Also copies of my letters to the the Office of Imam Khomeini. Hojatol Islam sayed Ali Khamenei the President of Iran. Hojatol Islam sayed Ahmad Khomeini the son of Ayatollah Khomeini. Also I am enclosing a copy of the letter that I have written to the President of the American Medical Association. This is an association that I am an active member of it.

In my letter to Hojatol Islam sayed Ahmad Khomeini dated 12/24/1987, while I expressed my feeling of sorrow for the ongoing war which has led to casualties of more than a few hundred thousand of innocent people including infants and school children of two countries. I also expressed my feeling that justice should prevail.

In addition to the above, I have informed him that I have discovered the special Name of God (or Aazam Name of God). There has been a belief among many Shiite people that among many names that God has there is a special name (Aazam Name) that nobody knows it. And that if anybody can discover that name he or she will be able to open the windows of space into blessing and mercies, i.e. solving the problems of the world. I personally construed the story possibly a mistaken belief or superstition when I heard it for the first time a few months ago. Later on it happened that incidentally I became involved in studying about this name through a few books specially a book written by Ayatollah Khomeini (called Interpretation of the Dawn's Prayer). When I analyzed the different definitions of that name in those books through my theories suddenly I got the hunch and could discover the reality of that name by insight. Surprisingly I realized that the general belief in regard to the Aazam Name of God and its potential creativeness were true. Indeed this name is the Name of God that is closest to the quality of him. It discloses the power of God and the creativity of him when it is looked through my theories. My theories enable other people to discover this name for themselves in the future. As a matter of fact, during my inspiration by God in July 3, 1986 God was manifested for me with that name in the space and in his kingdom within me.

In my letter to the President of Iran (dated 12/28/1987) I have notified him too from my success in discovering the Aazam Name of God. Also I gave him the happy news of impending appearance of the Eman of the World or the prophet of the world

(some people call him the Messianic Mahdi or Return of Jesus, etc.) in the near future, specially if enough attention are paid into my words, my actions and my theories. In order to avoid any misunderstanding in this regard, I would like to emphasize here that this expected reality is not me neither is my theory. I am only a mean for communication and I communicate through my theories. As a matter of fact God did not assign me for any mission directly when he inspired me in July 3, 1986.

In my letter to the Office of Enam Khomeini dated 12/30/1987 I have disclosed briefly my experience of inspiration by God, my activities, my previous trip to Iran attempting to visit Ayatollah Khomeini, discoveries of my theories, the Aazam Nam of God, gaining the ability to communicate with God and with the prophet of the world. Also I notified about the happy news of impending appearance of the prophet of the world in a near future.

In my letter to Hajatol Islam Hashemi Rafsanjani I have briefly mentioned about my activities and my goal. Also I explained that I do not expect any personal reward for my efforts. If I can make the world closer to peace and justice the achievement itself will be my reward and satisfaction.

Dear Senator, I see through my theories and my effort formation and establishment of the United Countries of the world. They will unite under the rule of God through my theories. In that unity instead of cynicism, hatred and animosities, love, brotherhood and trust will prevail.

I see through my theory a world full of peace and prosperity. I see superstition, ignorance and prejudice will fade away. We see people of the world and follower of all religions discover themselves belong to the branches of the same tree. The tree of existence the masterpiece of God's work. Instead of war and hostilities we learn to utilize all the divine fruits and knowledge fairly and thankfully. We will learn to understand all the teaching of God. We will learn to put aside all pretense and meet each other face to face constructively without self pity and without prejudice. We will learn to recognize and eliminate our mistaken belief and our fundamentalistic ideas. We will learn to update and improve our ideas and impulses toward a more realistic goal. That is providing peace, health and happiness for the entire world as God desires.

We will learn to worship only God. He is the only supreme being everything in the universe belongs to him. Our superiority over others is a shadow of his superiority. He is everywhere. He belongs to everybody. All of us belong to each other through him. He is above all of us. Until we don't understand these facts peace and justice can not be achieved for the world.

Dear Senator Bradley, as I notified the President of the United States of America from my plan in December of 1986 (copy of my letter is enclosed) I have worked for developing and verification of a theory that I believe can make the world

an orderly place. It can regulate all the forces and motion in it toward Utopia by a few simple rules or laws. These rules can tie together many apparently unrelated things. So can create a world full of peace, prosperity and happiness.

I hope the year of 1988 and following years become progressively happier for everybody in the world. Personally I am planning to discontinue writing my letters in this regard instead, after a few weeks of relaxation, will start to work on writing my books.

Meanwhile I will be available for further explanation, guidance and cooperation as needed at any time for proper people anywhere in the world.

Sincerely yours,

Homoz Mohtashemi, M. D.
