Clifton, NJ 07011  
September 22, 1988.

Mrs. Nancy Reagan  
The White House  
Washington D.C.

Dear Mrs. Reagan:

In view of special respect and admittation that I have for you and for President Reagan, I am pleased to send you updated information in regard to my theories for peace and glory in the world.

Parts of this information are summarized in the letters that I have written to Honorable Senator William Bradley (dated 01-04-88 and 04-05-88) and to His Holiness Pope John Paul II (dated 03-15-88), also to the President of the American Medical Association, dated 12-16-87 (all copies are enclosed).

You may also refer to some of my previous letters that have been sent to you too, including those dated March 12, 24; June 4 and July 5 of the year 1987 for further information in this regard.

Further evolution of the practical dimensions as well as invisible dimensions of those theories, hopefully will bring the world under an effective and compassionate leadership that everybody can trust, that is the Government of God. Then the world of the future will become progressively happier and more beautiful to live in, and to return to it (reborn in it) enthusiastically with faith and hope, as explained in my theories.

Mrs. N. Reagan; Page 2

Perhaps when we all will be reborn again, in it, into any 'body' and in any region, we will find the righteous light of life and God shine through all hearts and all faces, everywhere in peace and happiness, making this world, of our future, too, gloriously bright.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "H. Mohtashemi", is enclosed within a hand-drawn oval. To the right of the signature, there are some faint, illegible markings.

Hormoz Mohtashemi, M.D.

Enclosures.
