Dear Mr. Koppel,

Enclosed are copies of some of my writings and correspondences in regard to the inspiration that I had from God in July 3, 1986 and the theories that I have designed following the inspiration.

During the inspiration, God made me his son. My theories are new theories of life and love as well as God and his Mind. They explain God, energy, matter continuum and talk about the universe as an evolving, self conserving, self renewing existence which always be able to support life through the power of God and his will.

The basis of the theories speak to the evolution of many schools of thought such as psychology, religion, philosophy, modern mythology and others. they also address their potential powers for leading humanity toward achieving Health, Happiness, and Harmony.

I hope the enclosed materials, my writings, my inspiration from God, and my theories will be interesting for you.

Please feel free to contact me if further information is required.

Sincerely yours,

Doctor Hormoz Mohtashemi.
